SUMMARY

Front-end Developer with **2.7 years of experience** building **high-performance**, **SEO-optimized**, and **user-focused** web applications using **React.js**, **Next.js**, and **JavaScript**. Experienced in server-side rendering, web performance optimization, and delivering scalable, production-ready interfaces for high-traffic applications.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), Redux Toolkit, React Router, HTML5, CSS3
Performance & SEO: Server-Side Rendering (SSR), Core Web Vitals, Lighthouse Optimization, SEO Best Practices
UI Libraries: Material UI, Tailwind CSS, Styled Components
API Integration: REST APIs, RTK Query, Server-Sent Events (SSE)
Tools: GitHub, Bitbucket, GitLab, Jira, Cypress, SonarQube

EXPERIENCE

Software Engineer | Yatra.com   July 2025 – Present
Gurugram, Haryana, India
- Building **SEO-optimized, server-side rendered** flight booking applications using **Next.js**.
- Improving **Core Web Vitals (LCP, CLS, INP)** and overall performance, achieving near-**100 Lighthouse scores**.
- Implementing performance optimizations including **lazy loading**, **image optimization**, and **bundle reduction**.

Software Engineer | IoT83   July 2023 – June 2025
Gurugram, Haryana, India
- Developed scalable frontend applications using **React.js**, **Next.js**, and **Redux Toolkit**.
- Integrated APIs via **RTK Query** with efficient caching and background synchronization.
- Improved performance through **code splitting** and **lazy loading**; ensured code quality using **Cypress** and **SonarQube**.

PROJECTS

Yatra Flights SEO Application | *Next.js, React, SEO, SSR*   July 2025 – Present
- Built a **SEO-focused flight booking application** for **Yatra.com** to improve organic traffic and conversion rates.
- Implemented **server-side rendering (SSR)** and dynamic routing using **Next.js** for better crawlability and faster first contentful paint.
- Optimized **Core Web Vitals (LCP, CLS, INP)** achieving a **Lighthouse score close to 100** across performance, accessibility, SEO, and best practices.
- Worked on performance optimizations including **image optimization**, **bundle size reduction**, and **lazy loading**.
- Live URL: yatra.com/flight-schedules

EATON – Device Lifecycle Management Platform | *React, RTK Query, Cypress*   Oct 2023 – July 2025
- Developed front-end features for an **IoT device management system** handling device lifecycle and firmware updates.
- Built **responsive dashboards** with real-time data visualization using Highcharts.
- Designed **modular and reusable components** for scalability and maintainability.

EDUCATION

GLA University   Uttar Pradesh, India
B.Tech in Computer Science and Engineering   *Nov 2019 – May 2023*
